
PUSH VIDEO

Quick Installation Guide

Push Video is a function triggered when the IP camera detects motion. The IP Camera will send notification together with the video event.

BEFORE USING PUSH VIDEO:

- Make sure the IP camera has access to the Internet.
- Make sure the mobile device has access to the Internet.
- You need an SD Card inside the IP Camera.
- Setup the IP Camera, for storing video at the SD Card when motion is detected.

EXAMPLE:

1. Open your browser and type-in the IP address of the IP camera.
2. Click on the “administration page” button, located at the top-right corner, as shown in the picture below.

3. On the “administration page” click on “Event Setting”, as shown in the picture

below.

4. Set the area motion and tick on “Save to SD Card”, as shown as the picture below. Also, set the interval time for detecting motion events. It is recommended to set **60 seconds**.

Area Setting: Area 1 Area 2 Area 3

Sensitivity: Area 1: 10(High) Area 2: 5 Area 3: 5

Area 1: E-mail FTP Out Save to SD card Samba

Area 2: E-mail FTP Out1 Save to SD card Samba

Area 3: E-mail FTP Out1 Save to SD card Samba

Subject: IP Camera Warning!

Interval: 10 sec a period of time between every two motions detected.

Based on the schedule

5. “Record Time Setting” set the video length for the video. This length will be same as the video received by the push notification.

Record Time Setting

Pre Alarm: 5 sec Post Alarm: 5 sec

5. Click on **APPLY** for saving the changes.

When adding or editing an IP camera. Press on the “Push Video” button.

After adding/changing the IP Cam info press on the  button located in the top-right corner for applying the changes.

The IP Camera will start receiving notifications and soon as it detects motion.

The APP can display up to 6 notifications. If there are more than 6 notifications it will display the latest 6 notifications.

Open the notification area to see more details about the notifications.

Press on any notification to see a list of the recent events registered on the APP.

Press on any of the recent events to see the video related with the event.

After watching the video press back on your phone or press the **< Back** button for going back to the latest event list.

For disabling the Push Video function press “Push Video” on the editing interface.
